Mobile Application Development Plans

1. Android Mobile Application Development

What is an Android Application?

An Android application is designed for devices running on the Android operating system. It can be distributed through platforms like the Google Play Store or directly through APK files.

Features of an Android App:

- Custom UI/UX design.
- Fully responsive layout for all screen sizes.
- Integration with APIs (e.g., payment gateways, third-party services).
- Backend integration for dynamic apps.
- Push notifications.
- Bug-free and optimized code.
- Google Play Store publishing support.

Plans for Android Apps:

Plan	Price (INR)	Details
Basic Plan	₹ 99,999	Static app with up to 5 screens, basic functionality.
Standard Plan	₹149,999	Dynamic app with API integration, up to 10 screens.
Advanced Plan	₹ 249,999	Fully customized app, advanced features, and backend admin panel.
eCommerce Plan	₹ 499,999	Product management, payment gateway, cart, and order tracking.

2. iOS Mobile Application Development

What is an iOS Application?

An iOS app is designed specifically for Apple devices running iOS (iPhones and iPads). These apps are developed using Swift or Objective-C and can be distributed via the Apple App Store.

Features of an iOS App:

- Custom UI/UX design adhering to Apple guidelines.
- Responsive layout for all Apple devices (iPhone, iPad, etc.).
- Backend and API integration.
- Apple Push Notifications.
- Bug-free, optimized, and fast performance.
- Apple App Store publishing support.

Plans for iOS Apps:

Plan	Price (INR)	Details
Basic Plan	₹99,999	Static app with up to 5 screens.
Standard Plan	₹149,999	Dynamic app with API integration, up to 10 screens.
Advanced Plan	₹249,999	Fully customized app with advanced features, admin panel integration.
eCommerce	₹499,999	Complete eCommerce app with product management and payment

Plan	Price (INR)	Details
Plan		gateways.

3. Cross-Platform Development (Android + iOS)

What is Cross-Platform Development?

This involves building a single app compatible with both Android and iOS platforms using frameworks like React Native, Flutter, or Xamarin.

Features of Cross-Platform Apps:

- Single codebase for both platforms.
- Reduced development cost and time.
- API and backend integration.
- Push notifications for both platforms.
- App Store and Play Store publishing support.

Plans for Cross-Platform Apps:

Plan	Price (INR)	Details
Basic Plan	₹149,999	Static app with up to 5 screens.
Standard Plan	₹249,999	Dynamic app with API integration, up to 10 screens.
Advanced Plan	₹499,999	Fully customized app with advanced features, admin panel integration.
eCommerce Plan	₹599,999	Complete eCommerce app for both platforms.

Add-Ons and Custom Features:

Feature	Price (INR)
Push notifications	₹3,000
Multi-language support	₹10,000+
Advanced analytics setup	₹5,000+
Social media integration	₹5,000
In-app purchases setup	₹10,000
Additional screen (per screen)	₹5,000

Terms and Conditions

1. Scope of Work:

- The features and functionalities will be finalized before the development begins. Any additional features outside the agreed scope will incur additional charges.
- Design prototypes will be provided for approval before development begins.

2. Payment Terms:

- 40% of the project cost is payable upfront.

- 40% payment upon approval of the beta version.
- Final 20% payment before app deployment.

3. Delivery Timeline:

- Static apps will be delivered within 15–20 business days.
- Dynamic apps will be delivered within 30–45 business days, depending on complexity.
- Any delays due to incomplete client inputs (e.g., content, APIs) will extend the timeline.

4. Client Responsibilities:

- The client must provide all required assets (logos, images, content, APIs) unless otherwise agreed.
- The client must pay for App Store and Play Store developer accounts (₹8,500/year for iOS and ₹2,500 one-time for Android).

5. Revisions:

- Up to 2 free revisions for the UI/UX design are included. Additional revisions will be billed at ₹1,500 per round.

6. Maintenance:

- Bug fixes and minor updates are free for the first 30 days after deployment.
- Ongoing maintenance plans start at ₹3,000/month.

7. Refund Policy:

- Refunds are not provided once development has started.
- If the project is cancelled during development, the upfront payment is non-refundable.

8. Ownership:

- The app's code and design will be handed over to the client after the final payment is made.
- The client retains full ownership of the app.

9. Publishing:

- The client must provide credentials for Play Store and App Store accounts for app deployment.
- We ensure the app adheres to store guidelines but are not responsible for delays caused by rejections or changes in guidelines.

10. Confidentiality:

- All client data, app details, and project information will remain confidential.

Additional Details

• Technology Stack:

- Android: Java/Kotlin.
- iOS: Swift/Objective-C.

- Cross-Platform: Flutter/React Native.
- **Support and Maintenance:**
 - Monthly support starts at ₹3,000 and includes minor updates, backups, and performance monitoring.
 - Emergency bug fixes will be billed at ₹1,000/hour.
- **API Integration:**
 - Integration with third-party APIs (e.g., payment gateways, social logins, or custom APIs) is included in dynamic and advanced plans.
- **Deployment:**
 - Deployment on Google Play Store or Apple App Store is included.
 - Assistance in setting up hosting or backend services (if required) is provided.

GST Not Applicable
